April 18, 1977

Gulf Energy and Minerals Company
P. O. Box 670
Hobbs, New Mexico 88240

Attention: Mr. C. D. Borland

Administrative Order No. DHC-218,
H. T. Mattern (NCT-B) Well No. 15,
Unit N, Section 30, Township 21
South, Range 37 East, NMPM, Lea
County, New Mexico, Blinbry Oil
and Gas and Drinkard Pools

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Commission Rules and Regulations for the subject well to permit the commingling of production from both pools in the well-bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such down-hole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Order No. R-5273, the supervisor of the Hobbs District Office of the Commission shall determine the proper allocation of production from the well following its completion.

Pursuant to Rule 303-C and Order No. R-5273, the commingling authority granted by this order may be rescinded by the Secretary-Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

JOE D. RAMEY
Secretary-Director
