Section 32, Township 25 North,  
Range 5 West, NMPM, Rio Arriba  
County, New Mexico, Pictured  
Cliffs and Chacra Formations

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations for the subject well to permit the commingling of the production from both pools in the well-bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C and Division Order No. R-5388-A, that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Division Order No. R-5388-A the supervisor of the Aztec District Office of the Oil Conservation Division shall determine the proper allocation of production from the subject well following its completion.

Pursuant to Rule 303-C 5 and Order No. R-5388-A (6), the commingling authority hereby granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

  
JOE D. RAMEY  
Division Director
