Administrative Order No. DHC-388

Chace Oil Company, Inc.
313 Washington, S.E.
Albuquerque, New Mexico 87108

Attention: Mr. Ross Easterling

Re: Jicarilla Apache 47 Well No. 1
Unit I - 1850' FSL and 790' FEL
Sec. 12, T-23-N, R-4-W,
Rio Arriba County; Undesignated
Gallup Chacon Dakota Associated
Pool

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 50 barrels per day, and total water production from the well shall not exceed 100 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2,000 by top unit allowable for the Chacon Dakota Associated Pool.

The operator shall develop an allocation formula suitable to the supervisor of the Aztec District Office and document such allocation formula to the District supervisor and this office by March 1, 1983.

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Joe D. Ramey", is written over the typed name. The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.

JOE D. RAMEY,
Division Director
