BA-17nonstdloc.doc

Mr. Stogner:

Our recent conversation called to mind another issue we had sought to resolve, and it has occurred to me that previous correspondence didn't reach you as expected. Attached please find the cover letter requesting administrative approval for a non-standard location for the referenced well (API 30 025 10178) in the Blinebry field. I'll be glad to fax the rest of the package to you, as it is contained in programs from which I cannot 'attach' to this email message.

Thank you for your recommendations.

Laura Clepper

**Importance:** High

BA-17nonstdloc.doc

Mike -

Attached is the letter I sent in January of this year, accompanied by the appropriate forms, seeking approval for the referenced non-standard location.

Can you update me on the status of this request? There are ongoing C115 issues that can be resolved pending this approval. If some portion of the filing has been omitted, please advise me so I may provide it also.

Thanks  
Laura Clepper
