Gentlemen:

Attached is a copy of the allocation for the subject well that was commingled 5-9-01. DHC-358az was issued for this well.

Gas:	Chacra	1%
	Mesaverde	99%

Oil:	Chacra	0%
	Mesaverde	100%

These percentages are based upon reserves assigned to each formation founded on production from the respective formations before and after work-over operations. The Chacra formation does not produce any oil; therefore, oil percentages are allocated solely to the Mesaverde formation.

Please let me know if you have any questions.

Sincerely,

A handwritten signature, "Peggy Cole", is written in dark ink. The signature is cursive and flows from left to right.
