Subject: H&K 18 Federal 1- Release

Mike /Jim

Chesapeake had a release on the H&K 18 Federal #1, The oil tank developed a hole in the bottom of the tank releasing 200 barrels of fluid inside the lined firewall. Some fluid did get out of the firewall, the tanks will be cleaned out today and inspected for reason of failure. Crew will be dispatched to cleanup area outside firewall. Initial C-141 will follow shortly. If you have any questions please give me a call.
