Greetings,

NMOCD District 2 office is in receipt of a remediation proposal (work plan) for remediation of soils impacted due the above referenced release of produced fluids. The work plan was submitted by Burnett Oil Company's agent, Eddie Seay. The work plan proposes to excavate visibly identifiable impacted material, and haul to an NMOCD approved disposal facility. Representative samples will then be obtained to determine final requirements for the remediation process.

The work plan is approved with the following conditions and/or stipulations:

- Notify NMOCD District 2 Office 48 hours prior to commencement of remedial activities.
- Notify NMOCD District 2 Office 48 hours prior to obtaining samples where the analyses will be submitted to NMOCD.
- A review of analytical data by NMOCD, will be required prior to backfilling any excavations.
- Submit a Form C-141 Final Report and closure report upon satisfactory completion of project.
- Project is to be completed and final documentation submitted to NMOCD, not later than October 1, 2011.
- Like approval by BLM, or any other regulatory authority, as may be applicable.

Be advised, NMOCD approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notifications, please contact me.

Mike Bratcher
