Re: Application of Williams Production Company for Administrative Approval of the Simultaneous Dedication of the East-Half of Section 36, Township 32 North, Range 6 West, N.M.P.M., Rio Arriba County, New Mexico to its proposed Rosa Unit Well No. 357A and the existing Rosa Unit Well No. 357

Dear Ms. Bailey:

Williams Production Company is the operator of a 320-acre spacing unit in the Basin Fruitland Coal Pool (**Pool Code 71629**) comprised of the east-half of Section 36, Township 32 North, Range 6 West, N.M.P.M., Rio Arriba County, New Mexico. This spacing unit is dedicated to Williams' Rosa Unit Well No. 357 which has been vertically drilled and produces from the Fruitland Coal formation.

Williams seeks administrative approval of the simultaneous dedication of this 320-acre spacing unit to the following two gas wells:

- A. the **Rosa Unit Well No. 357 (API No. 30-039-26398)** vertically drilled from a surface location 1045 feet from the North line and 1605 feet from the East line of said Section 36; and
- B. the proposed **Rosa Unit Well No. 357A (API No. 30-039-29488)** to be horizontally drilled from a surface location 1370 feet from the South line and 1490 feet from the East line to a proposed end point or bottomhole location 1520 feet from the North line and 2500 feet from the East line of said Section 36.

Rosa Unit Well No. 357 is at a standard location in the Fruitland Coal formation pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool. Williams now intends to horizontally drill and complete its proposed Rosa Unit Well No. 357A to be drilled to the targeted subsurface end-point or bottomhole location 1520 feet from the North line and 2500 feet from the East line (Unit G) of Section 36. Williams proposes to drill this well in compliance with the set-back requirements of the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool.

Attached hereto as **Exhibit A** is a copy of Division Form C-102 for this well that shows the proposed surface and bottomhole location of the well.

Exhibit B is a map of offset operators around the spacing unit in Section 36, T32N - R6W. Williams is the operator of all offsetting spacing units within Rosa Unit. Energen Resources is the operator of all the offsetting spacing units located outside of the Rosa Unit.

Williams has mailed, via USPS Certified Mail, Notice to the offset working interest owners and offset operators that this application has been submitted. A copy of the List of Offset Owners and Offset Operators as well as the Notice is attached hereto as **Exhibit C**.

The simultaneous dedication of the East-Half of said Section 36 to the Rosa Unit Well No. 357 and Rosa Unit Well No. 357A will afford Williams the opportunity to efficiently produce the Fruitland Coal formation under this spacing unit. Williams' proposed simultaneous dedication of these wells does not exceed the number of wells allowed by Division Rule for this spacing unit.

Your attention to this application is appreciated.

Sincerely,
