RECEIVED OGD

Dear Ms. Bailey:

LOGOS Operating, LLC ("Logos") respectfully requests the amendment of NSL Order No. 6751, granted to Logos on February 15, 2013, in correlation with a required well location change. The Bureau of Land Management has required Logos to move the location for the Logos No. 4 well from the original location that required the granted order (1333 FNL & 2293 FWL, C (Lot 3), Section 1 T23N, R8W) for environmental and cultural reasons. The new location is within the same approved 40.20 acre non-standard proration unit (C (Lot 3) of Section 1 T23N, R8W) for the Logos No. 4 Well, however, the exact well location has been moved to a location 1256' FNL and 2298' FWL of Section 1, T23N, R8W. This location is requires the same notice as that notice already given for the initial location. As there were no objections to that location, we request this amendment be approved as soon as possible.

Enclosed please find a revised C-102 application that identifies the final location approved by the BLM that Logos plans to drill in the coming weeks.

Thank you for your consideration of this request. Should more information be required, please do not hesitate to contact me at 303-550-1877.

Very truly yours,
