Mike McMillan  
Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505

Dear Mr. McMillan:

Pursuant to NMAC 19.15.15.13, Mewbourne Oil Company applies for approval of an unorthodox oil well location for the following well:

<u>Well:</u>	Wildcat 21 MP Fed. Com. Well No. 1H
<u>Surface location:</u>	1160 feet FSL & 150 feet FWL
<u>Beginning of producing interval:</u>	1050 feet FSL & 625 feet FWL
<u>Bottom hole location:</u>	330 feet FSL & 330 feet FEL
<u>Well unit (project area):</u>	S½S½ of Section 21, Township 23 South, Range 34 East, N.M.P.M., Lea County, New Mexico

The well will be drilled to a depth sufficient to test the Bone Spring formation (West Antelope Ridge-Bone Spring Pool; pool code 39564). The formation is spaced on statewide rules, with 40 acre spacing and wells to be located no closer than 330 feet to a quarter-quarter section line. A Form C-102 is attached as Exhibit A.

The surface location was chosen to avoid arroyos in the immediate area. Exhibit B. In addition, the unorthodox location for a portion of the producing interval will maximize the productive interval of the wellbore.

A land plat is attached as Exhibit C. The unorthodox portion of the wellbore encroaches on the N½S½ of Section 21. However, the entire S½ of Section 21 is subject to an operating agreement under which working interest ownership is common. Therefore, notice of this application has not been sent to any offset.

Please contact me if you need any further information on this application.

Very truly yours,

James Bruce

Attorney for Mewbourne Oil Company

Michael

I'm sorry for getting back to you this late. Monday afternoon I didn't receive any e-mail and I was out yesterday for surgery.

The below well is in the an area proposed for extension to the Antelope Ridge;Bone Spring, West Pool (Poolid 2209)

Paul

Jim:  
I have a question about the Mewbourne Oil company Wildcat 21 MP Fed Com Sec. 21 23S34E  
Do you have a BLM sundry notice for this well? Also looking at the land plat State Land Office has minerals in this tract-is this correct?  
Happy new year
