Mr. Glenn VonGonten  
Environmental Bureau Chief  
New Mexico Energy, Minerals & Natural Resources Department  
Oil Conservation Division, Environmental Bureau  
1220 South St. Francis Drive  
Santa Fe, NM 87505

RE: Jacquez Gas Com # F1 Groundwater Investigation located in Blanco, San Juan County, NM  
Unit letter L, Section 4, Township 29N, Range 9W

Dear Glenn:

The purpose of this letter is to inform the Bureau that groundwater monitoring wells have not been installed at the Jacquez Gas Com # F1 well tie line release/repair location as of yet. On/about November 15 2011, the landowner denied access to this location when third party environmental contractors attempted to stake the pipeline remediation area for the installation of monitoring wells. The Enterprise land department is currently working with the landowner to resolve this situation. Once this problem is solved, the required groundwater wells will be installed and quarterly monitoring will be conducted.

Should you have any questions or need any additional information, please feel free to contact me at (505) 599-2286, or [amdailey@eprod.com](mailto:amdailey@eprod.com).

Sincerely,

A handwritten signature in black ink, appearing to read 'Aaron Dailey'.

Aaron Dailey  
Field Environmental Scientist-San Juan Division
