Subject: Plains All American Pipeline, L.P.,  
Annual Temporary Permission to Discharge Hydrostatic Test Water  
Permit: HBP-031  
Temporary Permission Fee

Dear Mr. Jones,

Upon receipt of a letter from you dated June 23, 2014 granting approval to Plains for the discharge of the hydrostatic test wastewater, the \$150 temporary permission fee is hereby enclosed.

If you should have any questions or need additional information, please contact Wayne Roberts at (432) 221-7926, or by email at [wroberts@paalp.com](mailto:wroberts@paalp.com). Please direct all correspondence to Mr. Roberts at the following address: 505 N. Big Spring, St. 600, Midland, TX 79701.

Sincerely,

Cindy K. Crain, P.G.  
(on behalf of Wayne Roberts)

Subject: Plains All American Pipeline, L.P. Request for Annual Temporary  
Permission (HBP-22) to Discharge Hydrostatic Test Water

Dear Mr. Jones,

Plains All American Pipeline, L.P. (Plains) is requesting Annual Temporary Permission (HBP-22) to discharge hydrostatic test water from new crude oil pipelines in Lea, Eddy and Chavez counties, New Mexico. Discharges will occur within Plains' right-of-way and will be done in a manner to control erosion and prevent sediment discharging from the site. Methods of controlling sediment include: filter bags, detention basins, utilizing a water truck to spray test waters for dust suppression on the right-of-way, working the test water into the trench spoils to aid with compaction, or placing water in the trench and allowing it to soak or evaporate.

The annual temporary permission authorized Plains to discharge hydrostatic test waters throughout the state of New Mexico under the following conditions:

1. The volume does not exceed 25,000 gallons per hydrostatic test;
2. Only water from a public/municipal water supply or other OCD approved sources will be used for each test;
3. Plains will provide oral or written notification to the OCD 72 hours prior to each hydrostatic discharge event;
4. Test water will not enter any lake, perennial stream, river or their respective tributaries that may be seasonal;
5. No discharge shall occur:
  - a. Where ground water is less than 10 feet below ground surface;
  - b. Within 200 feet of a watercourse, lakebed, sinkhole or playa lake;
  - c. Within an existing wellhead protection area;
  - d. Within 500 feet of a wetland; or
  - e. Within 500 feet from the nearest permanent residence, school, hospital, institution or church;

**PIPELINE, L.P.**

Brad Jones, NMOCD  
June 17, 2014

Page 2

6. The discharge will not cause any fresh water supplies to be degraded or to exceed standards as set forth in Subsections A, B, and C of the 20.6.2.3103 NMAC (the New Mexico Water Quality Control Commission Regulations);
7. Best management practices will be implemented to contain the discharge onsite, ensure it does not impact adjacent property, and to control erosion;
8. The landowner(s) of each proposed discharge and/or collection/retention or alternative discharge location will be properly notified of the activities prior to each proposed hydrostatic test event; and
9. Plains will submit an annual report, summarizing all tests of new pipe with less than 25,000 gallons per hydrostatic test event, to the OCD within 45 days after the temporary permission expiration date. The report shall contain the following information:
  - a. Location of hydrostatic test (Section, Township and Range or GPS coordinates);
  - b. Date of each test;
  - c. Volume of each discharge; and
  - d. Source and quality of test water (laboratory analysis, if necessary).

Enclosed is a check for \$100 to cover the filing fee. Upon notification of the OCD approval of the annual temporary permission to discharge, a temporary permission fee of \$150 will be paid to the Water Quality Management Fund. Please feel free to call me at (432) 221-7926, or email me at [weroberts@paalp.com](mailto:weroberts@paalp.com) if you have any questions. I appreciate your timely review of this application.

Sincerely,

Wayne E. Roberts  
Director, E&RC  
Plains All American Pipeline, L.P.
