Cimarex Energy Co.
Attn: Mr. David Catanach

ADMINISTRATIVE NON-STANDARD LOCATION, AND NON-STANDARD PRORATION
UNIT

Administrative Order NSL-7141
Administrative Application Reference No. pMAM1421941224

Administrative Order NSP-2002
Administrative Application Reference No. pMAM1421941393

Cimarex Energy Co.
OGRID 215099
Hornsby 35 Federal Com Well No. 7H
API No. 30-015-42168

Proposed Location:

	<u>Footages</u>	<u>Unit/Lot</u>	<u>Sec.</u>	<u>Twsp</u>	<u>Range</u>	<u>County</u>
Surface	210 FSL & 2020 FEL	2	35	26S	27E	Eddy
Penetration Point	330 FSL & 2020 FEL	2	35	26S	27E	Eddy
Terminus	330 FNL & 2020 FEL	B	26	26S	27E	Eddy

Proposed Project Area:

<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
Lot 1, Lot 2, NE/4 NE/4, NW/4 NE/4 of Section 35, E/2 of Section 26	448.31	WC-015 S262728A;Wolfcamp (Gas)	98017

Reference is made to your application received on August 27, 2014.

You have requested to drill this well at a non-standard gas spacing and proration unit described above in the referenced pool or formation. This proration unit is governed by statewide Rule 19.15.15.10.B NMAC, which provides for 320-acre units, with wells located at least 660 feet from a unit outer boundary, and Rule 19.15.16.14.B(2) NMAC concerning

directional wells in designated project areas. This location is unorthodox because a portion of the project area is less than 660 feet from the unit boundary.

Your application has been duly filed under the provisions of Division Rules 19.15.15.13 NMAC and 19.15.4.12.A(2) NMAC.

It is our understanding that you are seeking this location in order to maximize the recovery of oil and gas reserves from the Wolfcamp formation within the project area.

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Rule 19.15.4.12 (A) 2 NMAC, in all adjoining units towards which the proposed location encroaches for affected parties in New Mexico.

Pursuant to the authority conferred by Division Rule 19.15.15.13 (B) NMAC, the above-described unorthodox location is hereby approved.

Non-Standard Proration Unit

You have also requested approval of one or more non-standard proration units to be included in your proposed project area, as follows:

Units Comprising this Project Area

Unit	Acres	Pool	Code
Lot 1, Lot 2, NE/4 NE/4, NW/4 NE/4 of Section 35,	128.31	WC-015 S262728A;Wolfcamp (Gas)	98017
E/2 of Section 26	320	WC-015 S262728A;Wolfcamp (Gas)	98017

Statewide Rule 19.15.15.10.B NMAC provides for 320-acre units, which consists of the E/2 of Section 26. However, Lot 1, Lot 2, NE/4 NE/4, and NW/4 NE/4 of Section 35, are comprised of 128.31-acres. According to Division Rule 19.15.15.11.B(1) NMAC, an administrative approval is required for a non-standard spacing unit that is less than 70 percent of a standard spacing unit, in this case 128.31 acres

Your application has been duly filed under the provisions of Division Rules 19.15.15.13 NMAC and 19.15.4.12.A(2) NMAC.

It is our understanding that you are seeking this location because the non-standard project area represents a reasonable and effective method by which portions of Irregular Section 35 can be incorporated into horizontal Wolfcamp project area.

It is also understood that since no acreage is being excluded in the project area, no interest owner is affected; therefore, notification is not required.

Pursuant to the authority conferred by Division Rule 19.15.15.13 (B) NMAC, the above-described unorthodox location is hereby approved.

August 27, 2014

Page 3

The above approvals are subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 19.15.5.9 NMAC.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on August 27, 2014

A handwritten signature in black ink, appearing to read "Jami Bailey", is written over a faint, stylized outline of the state of New Mexico.
