Dear Ms. Bailey:

Pursuant to Division Rules 19.15.15.13 & 19.15.15.11, Cimarex Energy Company ("Cimarex") respectfully requests administrative approval:

1. For four unorthodox horizontal well locations for the Hornsby 35 Federal Com Wells No. 7H, 9H, 10H and 12H located at the surface, first take point and bottomhole locations described as follows. These wells will be drilled to test the WC-015 S262728A: Wolfcamp (Gas) Pool:

Hornsby 35 Federal Com Well No. 7H (API No. 30-015-42168)
Surface Location: 210' FSL & 2020' FEL (Lot 2) Section 35

Hornsby 35 Federal Com Well No. 9H (API No. 30-015-42137)
Surface Location: 210' FSL & 1940' FEL (Lot 2) Section 35

Surface Location: 210' FSL & 790' FEL (Lot 1) Section 35
First Take Point: 330' FSL & 790' FEL (Lot 1) Section 35
Bottomhole Location: 330' FNL & 790' FEL (Unit A) Section 26

Hornsby 35 Federal Com Well No. 12H (API No. 30-015-42138)

Surface Location: 210' FSL & 710' FEL (Lot 1) Section 35

First Take Point: 330' FSL & 710' FEL (Lot 1) Section 35

Bottomhole Location: 330' FNL & 710' FEL (Unit A) Section 26

2. For a 448.31-Acre Non-Standard Spacing Unit/Horizontal Project Area comprising the E/2 of Section 26 and Units A & B and Lots 1 & 2 (NE/4 equivalent) of Irregular Section 35, both in Township 26 South, Range 27 East.

The proposed Hornsby 35 Federal Com Wells No. 7H, 9H, 10H and 12H will be drilled and completed as a horizontal wells in the WC-015 S262728A; Wolfcamp (Gas) Pool (98017).

The proposed Hornsby 35 Federal Com Wells No. 9H & 12H will test the "D" interval within the Wolfcamp formation, and the Hornsby 35 Federal Com Wells No. 7H & 10H will test the "C" interval within the Wolfcamp formation.

The WC-015 S262728A; Wolfcamp (Gas) Pool is currently governed by Division Rule 19.19.15.10 which requires standard 320-acre gas spacing and proration units with wells to be located no closer than 660 feet to the outer boundary of the quarter section in which the well is located, and no closer than 10 feet to any governmental quarter-quarter section line or subdivision inner boundary. These wells are also governed by the provisions of Order No. R-13499, which order established rules and regulations for horizontal wells.

The proposed non-standard well locations are necessary in order to maximize the recovery of oil and gas reserves from the Wolfcamp formation underling the proposed non-standard spacing unit/horizontal project area.

The attached plat shows that Section 35 is an irregular section whose southern boundary is the New Mexico/Texas State Line. This section is comprised of four standard 40-acre units (Units A, B, C & D) and four non-standard lots (Lots 1-4) that each comprise approximately 24 acres.

The concurrent development of Sections 26 and 35 in the Wolfcamp formation in the manner proposed by Cimarex represents a reasonable and effective method by which portions of Irregular Section 35 can be incorporated into horizontal Wolfcamp project areas.

In addition to the currently proposed non-standard spacing unit, Cimarex, as operator of the Wolfcamp formation in Sections 26 & 35, will concurrently propose an

additional non-standard Wolfcamp spacing unit comprising the W/2 of Section 26 and Units C & D and Lot 3 & 4 (NW/4 equivalent) of Irregular Section 35 in a separate administrative application.

Affected Offset Acreage-Unorthodox Well Location(s): The affected offset acreage with regards to the proposed unorthodox well locations are: i) the W/2 of Section 26 & Units C & D and Lots 3 & 4 of Irregular Section 35, which will be operated in the Wolfcamp formation by Cimarex Energy Company. **Please note that the working interest ownership between the drill tract and the offset tract comprising the W/2 of Section 26 and Units C & D and Lots 3 & 4 of Irregular Section 35 is common;** ii) W/2 of Section 23 which is currently operated in the Wolfcamp formation by Mewbourne Oil Company; iii) the W/2 E/2 of Section 23 which is currently operated in the Wolfcamp formation by Chevron U.S.A., Inc.; iv) the E/2 E/2 of Section 23 which is leased by Chevron U.S.A., Inc.; and v) the S/2 and NW/4 of Section 24, which is currently leased by Yates Petroleum Corporation. Consequently, notice of this application with regards to the proposed unorthodox locations is being provided to Mewbourne Oil Company, Chevron U.S.A., Inc. and Yates Petroleum Corporation.

Affected Offset Acreage-Non-Standard Spacing Unit: Division Rule 19.15.4.12(A)(3) requires that notice for non-standard proration units be provided to “owners of interest in the mineral estate to be excluded from the proration unit in the quarter-quarter section for 40-acre pools or formations, the one-half quarter section for 80-acre pools or formations, the quarter section for 160-acre pools or formations, the half section for 320-acre pools or formations or section for 640-acre pools or formations in which the non-standard unit is located”. As shown on the attached plat, and as previously stated in this application, all acreage in Section 26 and Irregular Section 35 will ultimately be included in one of two horizontal Wolfcamp Project Areas operated by Cimarex. Also shown on the attached plat are other Wolfcamp spacing units that directly offset the proposed non-standard spacing unit. Cimarex believes that since no party will be excluded from participating in Wolfcamp development in Sections 26 and Irregular Section 35, no party is affected by the proposed non-standard spacing unit, and consequently notice of this application with regards to the non-standard spacing unit is not required, and has not been provided to any party.

Attached is a Form C-102 for each of the four wells showing the proposed surface and bottomhole well locations and proposed non-standard spacing unit. Please note that there are currently no other Wolfcamp producing wells within the proposed non-standard spacing unit. Also attached is a map showing the offset spacing units affected by the unorthodox well locations and other existing or proposed Wolfcamp spacing unit and/or project areas directly offsetting the proposed non-standard spacing unit.

In summary, approval of the application will provide Cimarex the opportunity to recover additional oil and gas reserves from the WC-015 S262728A; Wolfcamp (Gas) Pool underlying the E/2 of Section 26 and Units A & B and Lots 1 & 2 (NE/4 equivalent) of Irregular Section 35 that may otherwise not be recovered, thereby preventing waste, and will not violate correlative rights.
