ADMINISTRATIVE APPLICATION CHECKLIST

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

Application Acronyms:

[NSL-Non-Standard Location] [NSP-Non-Standard Proration Unit] [SD-Simultaneous Dedication]
[DHC-Downhole Commingling] [CTB-Lease Commingling] [PLC-Pool/Lease Commingling]
[PC-Pool Commingling] [OLS - Off-Lease Storage] [OLM-Off-Lease Measurement]
[WFX-Waterflood Expansion] [PMX-Pressure Maintenance Expansion]
[SWD-Salt Water Disposal] [IPI-Injection Pressure Increase]
[EOR-Qualified Enhanced Oil Recovery Certification] [PPR-Positive Production Response]

[1] TYPE OF APPLICATION - Check Those Which Apply for [A]

[A] Location - Spacing Unit - Simultaneous Dedication
☐ NSL ☐ NSP ☐ SD

Check One Only for [B] or [C]

[B] Commingling - Storage - Measurement
☐ DHC ☐ CTB ☐ PLC ☐ PC ☐ OLS ☐ OLM

[C] Injection - Disposal - Pressure Increase - Enhanced Oil Recovery
☐ WFX ☐ PMX ☒ SWD ☐ IPI ☐ EOR ☐ PPR

[D] Other: Specify _____

3rd Application

Added deeper open hole section

Parker Energy SS

[2] NOTIFICATION REQUIRED TO: - Check Those Which Apply, or ☐ Does Not Apply

[A] ☐ Working, Royalty or Overriding Royalty Interest Owners

[B] ☐ Offset Operators, Leaseholders or Surface Owner

[C] ☐ Application is One Which Requires Published Legal Notice

[D] ☐ Notification and/or Concurrent Approval by BLM or SLO
 U.S. Bureau of Land Management - Commissioner of Public Lands, State Land Office

[E] ☐ For all of the above, Proof of Notification or Publication is Attached, and/or,

[F] ☐ Waivers are Attached

APPLICATION FOR AUTHORIZATION TO INJECT

- I. PURPOSE: _____ Secondary Recovery _____ Pressure Maintenance _____ ☒ Disposal _____ Storage
Application qualifies for administrative approval? ☒ Yes _____ No
- II. OPERATOR: **Parker Energy Support Services, Inc** Ogrid # **245739**
ADDRESS: **P.O. Box 1957**
CONTACT PARTY: **Billy E. Prichard billy@pwllc.net** PHONE: **432-934-7680**
- III. WELL DATA: Complete the data required on the reverse side of this form for each well proposed for injection.
Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project? _____ Yes ☒ No
If yes, give the Division order number authorizing the project: _____
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.
- VII. Attach data on the proposed operation, including:
1. Proposed average and maximum daily rate and volume of fluids to be injected;
 2. Whether the system is open or closed;
 3. Proposed average and maximum injection pressure;
 4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and,
 5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- *VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval.
- IX. Describe the proposed stimulation program, if any.
- *X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division, they need not be resubmitted).
- *XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water.
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.
- XIV. Certification: I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.
- NAME: **Billy (Bill) E. Prichard** TITLE: **Agent for Parker Energy Support Services, Inc**
SIGNATURE:  DATE: 6/18/14
E-MAIL ADDRESS: **billy@pwllc.net**
- * If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be resubmitted. Please show the date and circumstances of the earlier submittal: 5/20/2014 Received objections from Cameron Oil

Legal Notice

Parker Energy Support Services, Inc, PO Box 1957, Eunice, NM has filed form C108(Application for Authorization to Inject) with the New Mexico Oil Conservation Division seeking administrative approval for the conversion of the Harry Leonard NCT J # 5, API 30-025-38789 , 1200 FNL x 990 FEL, Unit Letter"A", Section 24, T21S, R36E, Lea County, New Mexico from a plugged and abandoned oil well to a commercial San Andres salt water disposal well. The disposal interval would be the San Andres formation through perforations 4100 feet to 4320 feet and open hole from 4329 feet to 4675 feet. Disposal fluid would be produced water trucked in from numerous producing oil wells in southeastern New Mexico. Anticipated disposal rate 5000 BWPD with a maximum disposal rate of 7500 BWPD. Anticipated disposal pressure of 0(Zero) psi with a maximum disposal pressure of 820 psi. Well is located approximately 3 miles northwest of Eunice, New Mexico.

All interested parties opposing the aforementioned must file objections with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505 within 15 days. Additional information can be obtained by contacting Billy Prichard 432-934-7680

Legal Notice June 22, 2014

Parker Energy Support Services, Inc, PO Box 1957, Eunice, NM has filed form C108(Application for Authorization to Inject) with the New Mexico Oil Conservation Division seeking administrative approval for the conversion of the Harry Leonard NCT J # 5, API 30-025-38789 , 1200 FNL x 990 FEL, Unit Letter "A", Section 24, T21S, R36E, Lea County, New Mexico from a plugged and abandoned oil well to a commercial San Andres salt water disposal well. The disposal interval would be the San Andres formation through perforations 4100 feet to 4320 feet and open hole from 4329 feet to 4675 feet. Disposal fluid would be produced water trucked in from numerous producing oil wells in southeastern New Mexico. Anticipated disposal rate 5000 BWPDP with a maximum disposal rate of 7500 BWPDP. Anticipated disposal pressure of 0(Zero) psi with a maximum disposal pressure of 820 psi. Well is located approximately 3 miles northwest of Eunice, New Mexico.

All interested parties opposing the aforementioned must file objections with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505 within 15 days. Additional information can be obtained by contacting Billy Prichard 432-834-7680

JUN 12 2014

Per the rules and regulations of the New Mexico Oil Conservation Division enclosed is a copy of revised legal notice and wellbore diagram of the Harry Leonard NCT J # 5, API # 30-025-38789 from a plugged and abandoned oil well to commercial San Andres salt water disposal well.

Parker Energy Support Services, Inc, PO Box 1957, Eunice, NM has filed form C108(Application for Authorization to Inject) with the New Mexico Oil Conservation Division seeking administrative approval for the conversion of the Harry Leonard NCT J # 5, API 30-025-38789 , 1200 FNL x 990 FEL, Unit Letter "A", Section 24, T21S, R36E, Lea County, New Mexico from a plugged and abandoned oil well to a commercial San Andres salt water disposal well. The disposal interval would be the San Andres formation through perforations 4100 feet to 4320 feet and open hole from 4329 feet to 4675 feet. Disposal fluid would be produced water trucked in from numerous producing oil wells in southeastern New Mexico. Anticipated disposal rate 5000 BWPD with a maximum disposal rate of 7500 BWPD. Anticipated disposal pressure of 0(Zero) psi with a maximum disposal pressure of 820 psi. Well is located approximately 3 miles northwest of Eunice, New Mexico.

All interested parties opposing the aforementioned must file objections with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505 within 15 days. Additional information can be obtained by contacting Billy Prichard 432-934-7680

Hi Phil,

Yes, there is a bond in place for \$9,329.

Thank you,

Denise A. Gallegos

Subject: Check on Operator Bond Status

Denise:

Would you please see if Parker Energy Support Services (OGRID 245739) has a bond? They don't show up in the compliance side of OCD online (IA wells or financial assurance) and I am reviewing a final application for a SWD well (the Harry Leonard NCT J No. 5; 30-025-38789). Thanks. PRG

Re: *NMOCD Case No. 15180; Application of Parker Energy Support Services, Inc.
for Authorization to Inject, Lea County, New Mexico*

Gentlemen:

Parker Energy Support Services, Inc., originally sought administrative approval of its C-108 Application for Authorization to Inject for the Harry Leonard NCT J No. 5 Well located in Section 24, T21S R36E NMPM in Lea County. The administrative application was then scheduled for hearing on August 7, 2014 due to objections received from Cameron Oil and Gas Company and Norstrand Engineering represented by Mr. Jim Bruce and from the New Mexico State Land Office represented by Ms. Kelly Brooks Smith. In an e-mail dated August 1, 2014 (copy attached), counsel indicated that NMSLO would withdraw its objection if Parker Energy Support Services would agree to the following provisions:

1. The top of disposal zone is lowered to a depth of 4200 feet.
2. After the cement is drilled out of the casing shoe and approximately 300 feet of new open-hole is drilled below this casing shoe, Parker Services will log the open-hole for porosity and resistivity and will provide to the State Land Office a copy of each log run in this new open-hole.
3. Parker Services will pressure test the open-hole to determine the fracture gradient.

August 6, 2014

Page 2

4. Parker Services will swab or production test the open-hole to obtain a sample of formation water prior to injection, and report the water quality analysis to the State Land Office.

All counsel were advised that these terms are acceptable to the Applicant. Subsequently, Mr. Bruce informed the Division that Cameron Oil and Norstrand Engineering are correspondingly withdrawing their objections. Parker Energy Support Services, Inc. accordingly requests that its request for hearing be dismissed and that the Application be remanded for administrative review and approval. The Applicant further requests that items 1 through 4, above, be incorporated into the administrative order approving of its Application for Authorization to Inject.

I will be present at the Examiner hearing docket for another matter on August 7th and will be glad to address this matter on the record if requested. At this point, however, I do not plan to present witness testimony or other evidence.

Thank you for your consideration of this request.

Very truly yours,

MONTGOMERY & ANDREWS, P.A.

Subject: RE: NMOCD Case No. 15180 Parker Energy Support Services, Inc. Application for Authorization to Inject

Scott:

The Land Office will withdraw its protest to the application to convert the Harry Leonard NCT J No. 5 Well if Parker Services agrees to do the following:

1. The top of disposal zone is lowered to a depth of 4200 feet.
2. After the cement is drilled out of the casing shoe and approximately 300 feet of new open-hole is drilled below this casing shoe, Parker Services will log the open-hole for porosity and resistivity and will provide to the State Land Office a copy of each log run in this new open-hole.
3. Parker Services will pressure test the open-hole to determine the fracture gradient.
4. Parker Services will swab or production test the open-hole to obtain a sample of formation water prior to injection, and report the water quality analysis to the State Land Office.

I understand that these terms will be incorporated into the OCD permit itself. Let me know if this is acceptable or if we need to discuss this further.

Of course, if OCD approves the application, Parker Services will have to apply for the proper salt water disposal easement or lease with the State Land Office as well.

Thanks,

Kelly

RE: Harry Leonard NCT J Well No. 5 (API 30-025-38789) Sec 24, T. 21 S., R. 36 E., NMPPM, Lea County.
(Third C-108 Application dated June 18, 2014 for referenced well; Administrative App No. pPRG1417557619)

Mr. Prichard:

OCD was notified by Nordstrand Engineering, Inc. that they are protesting the current application for this well. This party is identified as an affected person and is the second protest filed regarding this application. Therefore, you are being notified that if Parker Energy Support Services wishes for this application to be considered, it must either go to hearing or may be reviewed administratively if the protest is withdrawn as a result of a negotiated resolution with this party. The application will be retained by OCD, but suspended from further administrative review. Please contact OCD once you have made a decision regarding the application. Please me contact with any questions regarding this matter. PRG
