NATURE OF RELEASE

Type of Release	Produced water	Volume of Release	10bbls	Volume Recovered	5bbls
Source of Release	Injection well hose	Date and Hour of Occurrence	06/30/2011	Date and Hour of Discovery	06/30/2011 10:15 a.m.
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			
If a Watercourse was Impacted, Describe Fully.*					
Describe Cause of Problem and Remedial Action Taken.*					
The hose connected to the Jenkins Federal #10 Injection Well ruptured, causing the release. The well has been shut in and the hose has been replaced.					
Describe Area Affected and Cleanup Action Taken.*					
Initially 10bbls were released from the ruptured injection hose and we were able to recover 5bbls with a vacuum truck. The spill area measured 20' x 30' in the pasture adjacent to the Jenkins B Federal #10 location. Tetra Tech will sample the spill site area to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD / BLM for approval prior to any significant remediation work.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike and Terry,

Tetra Tech will be onsite Thursday morning (8-11-11) at the Jenkins B Federal #10 to assess the spill area. Soil samples will be collected with a hand auger to define the spill extents. If the impact is defined, a work plan will be prepared for your review and approval. If you have any question please call me, thanks
