| Describe Area Affected and Cleanup Action Taken.*<br>Initially 23bbls of produced water was released from the water tank and we were able to recover 21bbls with a vacuum truck. The entire release was completely contained inside the lined facility. All free fluid has been picked up and all contaminated gravel has been removed. In addition, clean gravel has been added to the facility as necessary. The facility has been returned to its prior condition.  |  |   |              |  |                      |
| I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. |  |   |              |  |                      |
