The oil production from these wells may be transported by truck to either the Red Hills Offload Station, located in Unit O, Section 4-T26S-R32E, or the Jal Offload Station, located in Unit D, Section 4-T26S-R37E, Lea County in the event the CTB on lease is over capacity or in the case of battery or pipeline repairs. Oil will remain segregated and will be measured by lact meter when offloading at the Offload Stations.

The Eider wells have identical ownership in identical percentages, therefore, no owner notification is required. A letter from the responsible COG landman stating this fact is enclosed with this application.

Please see the enclosed Administrative Application Checklist, C-103 Application for Off Lease Measurement, plats for referenced wells, site facility diagram, maps with lease boundaries showing wells and facility locations and prior 6 month's production, along with copies of the submitted FMP sundries.

Thank you for your attention to this matter. If you have questions or need further information, please email me at jbarron@concho.com or call 575.748.6974.

Sincerely,

A handwritten signature in black ink that reads "Jeanette Barron".

Mr. McMillan:

My name is Matt Solomon and I am the landman at COG Operating LLC ("Concho") whose area of responsibility includes T24S-R32E, Lea County, New Mexico.

In the captioned wells, the revenue owners are identical. As defined in NMAC 19.15.12.7.B, identical ownership means leases or pools have the same working, royalty and overriding royalty owners in exactly the same percentages.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "MS", with a long horizontal flourish extending to the right.

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.
