ADMINISTRATIVE POOL/LEASE COMMINGLING ORDER

Administrative Order PLC-596

OXY USA Inc.  
Attention: Elizabeth Velasco

Pursuant to your application received on August 8, 2019, OXY USA Inc. (OGRID 16696) is hereby authorized to surface commingle oil and gas production and off-lease measure from the following pools:

RED TANK; BONE SPRING, EAST	(51683)
RED TANK; BONE SPRING, EAST	(51687)
WC-025 G-09 S223332A; UPR WOLFCAMP	(98177)

and from wells, their associated leases, pools, and range of decline identified in the application, Exhibit "A" made a part of this order. These wells are located on proposed state Communitization agreements located in Township 22 South, Range 33 East NMPM, Lea County, New Mexico.

Production from the subject wells shall be determined as follows:

It is understood that the test separator and meters are designed to accurately measure production from the wells with the highest production rate. It is also assumed that all the oil and gas production from the wells in this application will display a hyperbolic decline and will fit the decline parameters described in Hearing Order R-14299. Wells that are in "prior- to" Range 1 of decline shall be tested daily. Wells that are in Range 1 of decline shall be measured with a combination of metering and well testing and shall be tested at least three times a month. Wells that are in Range 2 of decline shall be measured with a combination of metering and well testing and shall be tested at least twice a month. Wells in Range 3 of decline shall be measured with a combination of metering and well testing and shall be tested at least once a month.

The commingled oil production from the wells detailed above shall be measured and sold at the Red Tank State 9 Central Tank Battery (CTB), located in Unit A of Section 30, Township 22 South, Range 33 East, NMPM, Lea County, New Mexico.

For future additions of wells, leases, and pools to this commingling operation, notice shall only be given to those interest owners in the wells, leases or pools to be added, in accordance with Division Rule 19.15.12.10 C (4) (g) NMAC.

Subsequently drilled wells that produce from the subject pool within the project areas approved by this order may be added to this commingling authority by submittal of a Sundry Notice to the Engineering Bureau in Santa Fe.

The allocation meters shall be calibrated quarterly in accordance with Rule 19.15.12.10.C (2) NMAC.

OXY USA Inc. shall provide a Sundry Notice to the Engineering Bureau in Santa Fe when a test separator is removed.

This approval is subject to like approval from the New Mexico State Land Office before commencing commingling operations.

The operator shall notify the Hobbs District office of the Division prior to implementation of the commingling operations.

This installation shall be installed and operated in accordance with the applicable Division Rules and Regulations.

**Adrienne Sandoval**
