Describe Cause of Problem and Remedial Action Taken.*

COG's line went down and therefore we were trucking the water, two trucks were hauling 24hrs a day and both went to sleep, which caused the tanks on the trucks to overflow; releasing an unknown volume. We recovered 150bbbls.

Describe Area Affected and Cleanup Action Taken.*

Inside of the bermed area will be hand dug and the location pad will be excavated to meet NMOCD/BLM Standards for Remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
