## C-108 - LOCATION AMENDMENT

On January 9, 2020 Trove Energy and Water accompanied BLM personnel from the Carlsbad Field Office to conduct an onsite inspection pursuant to Notice of Staking (NOS) requirements. On the ground, it was discovered that;

- 1) there is an unmovable allotment fence running N/S along the east section line of section 15. BLM requires that a pad area be a minimum of 30 feet off this fence.
- 2) a well pad extension had been staked by Mewboun Oil Company to the east of the existing pad.

These two factors forced the move of Trove's proposed SWD well spot to the south and west to accommodate both interests. A site was selected based on onsite conversations with BLM personnel.

Therefore, Trove proposes moving the location from 900' FNL x 100' FEL to **1340' FNL x 220' FEL**. ***This is move does not change the AOR significantly nor does it affect any additional persons, parties or interests.*** New survey stakes were placed.
