WLC South Federal SWD Well No.3

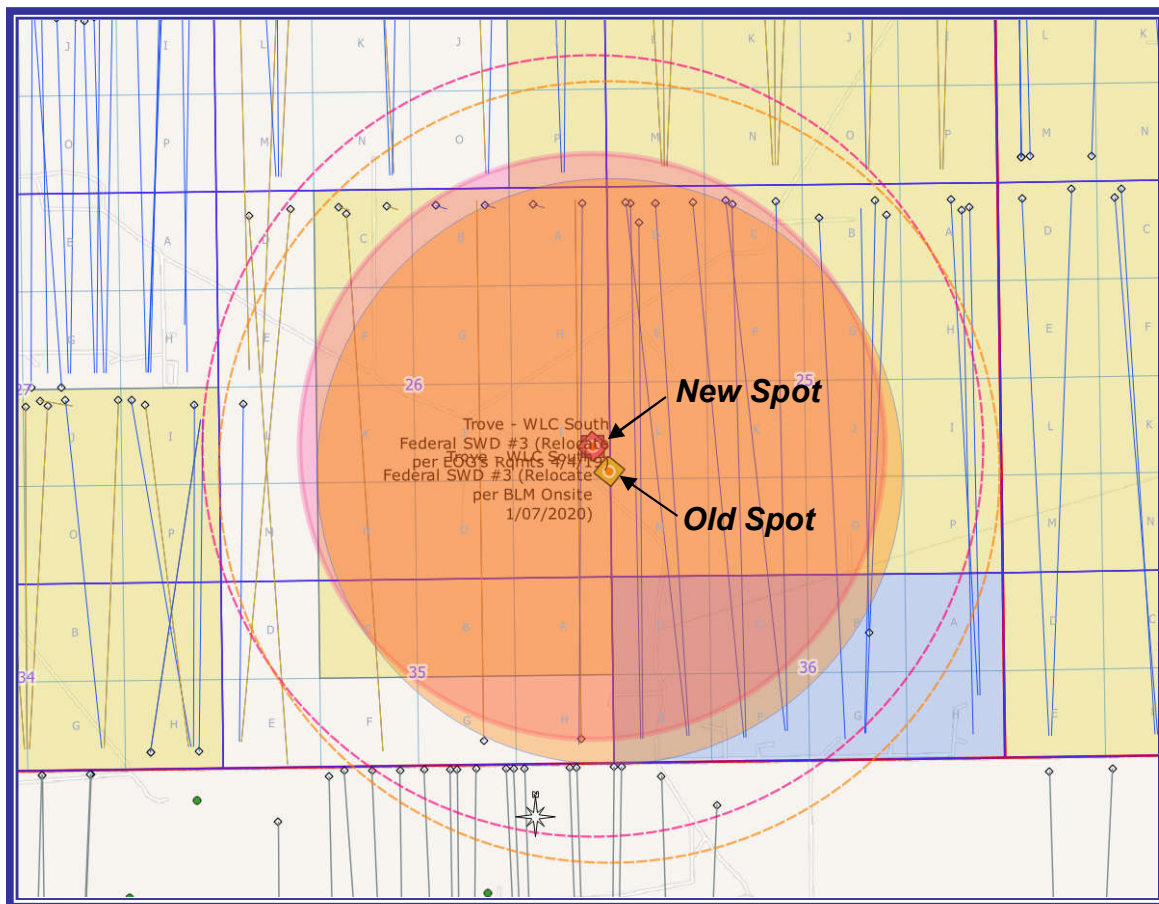

C-108 - LOCATION AMENDMENT

On January 7, 2020 Trove Energy and Water accompanied BLM personnel from the Carlsbad Field Office to conduct an onsite inspection pursuant to Notice of Staking (NOS) requirements. On the ground, it was discovered that;

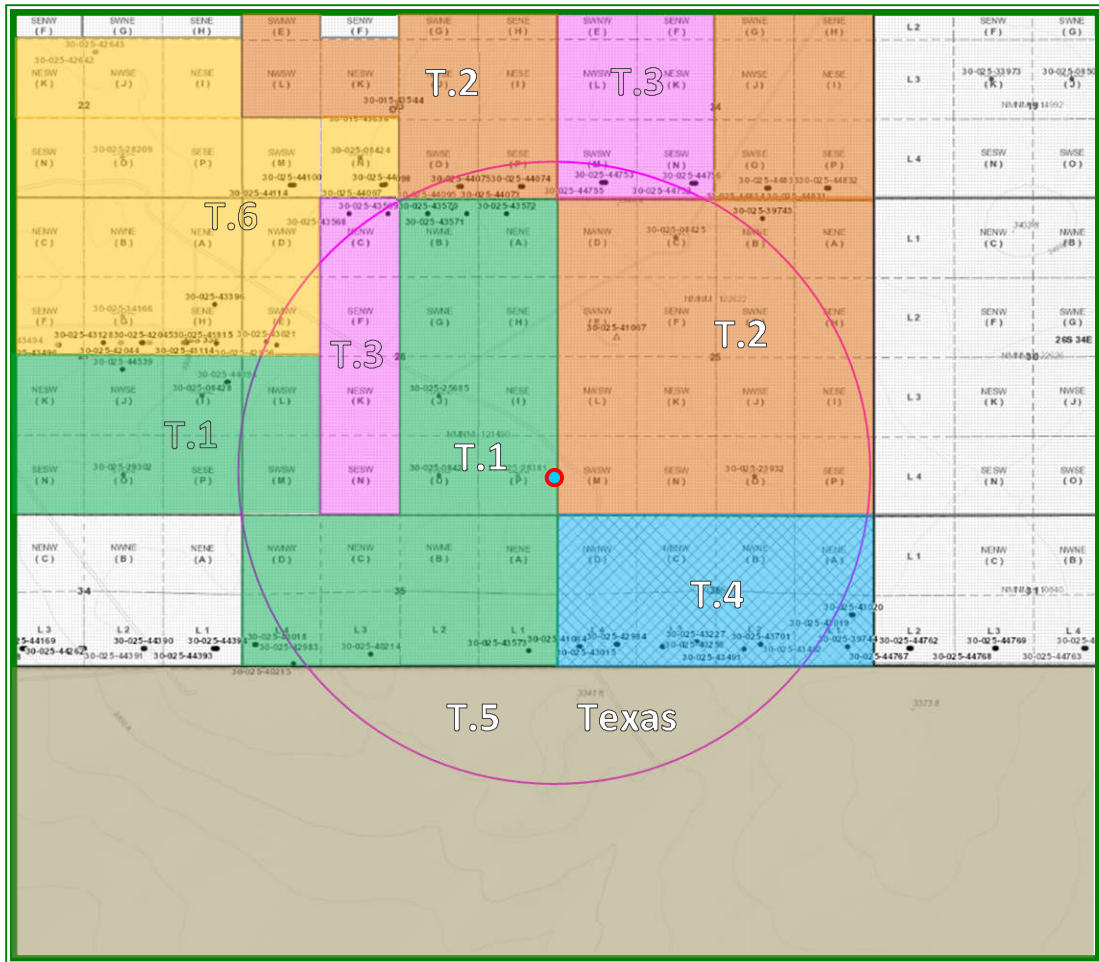

There is a pipeline right-of-way that was narrowly overlapped by the proposed location.

This factor forced the move of Trove's proposed SWD well spot to the north and west to accommodate the right-of-way. A site was selected based on onsite conversations with BLM personnel.

Therefore, Trove proposes moving the location from 1420' FSL x 15' FEL to **1768' FSL x 240' FEL**. ***This is move does not change the AOR significantly nor does it affect any additional persons, parties or interests.*** New survey stakes were placed.
