**Re: Application of Devon Energy Production, LP, for administrative approval of an unorthodox well location for its Thoroughbred 10-3 Fed Com #711H Well in the W/2 SW/4 of Section 3 and the W/2 W/2 of Section 10, Township 26 South, Range 31 East, N.M.P.M., Eddy County, New Mexico.**

Dear Ms. Sandoval:

Devon Energy Production, LP ("Devon") (OGRID No. 6137) seeks administrative approval of an unorthodox well location for its **Thoroughbred 10-3 Fed Com #711H Well** (API No. 30-015-46477) to be completed within the Purple Sage Wolfcamp Pool (98220) underlying the W/2 SW/4 of Section 3 and the W/2 W/2 of Section 10, Township 26 South, Range 31 East, N.M.P.M., Eddy County, New Mexico.

This well will be drilled from a surface location 220 feet from the south line and 350 feet from the west line (Unit M) of Section 10 to a bottom hole location 2645 feet from the south line and 330 feet from the west line (Unit L) of Section 3. The first take point will be located 330 feet from the south line and 330 feet from the west line (Unit M) of Section 10, and the last take point will be 2565 feet from the south line and 330 feet from the west line (Unit L) of Section 3.

Pursuant to Division Order R-14262, this acreage is governed by the Special Rules for the Purple Sage-Wolfcamp Gas Pool which provide for wells in the Wolfcamp formation in Eddy County to be located no closer than 330 feet to the outer boundary of the spacing unit. The completed interval for the **Thoroughbred 10-3 Fed Com #711H Well** will be unorthodox because it is closer than 330 feet to the northern boundary of the spacing unit in Section 3. Approval of the unorthodox completed interval will allow Devon to use its preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

**Exhibit A** is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Thoroughbred 10-3 Fed Com #711H Well** encroaches on the drilling and spacing units to the north in Section 3.

**Exhibit B** is a land plat for Sections 3 and 10 that shows the proposed **Thoroughbred 10-3 Fed Com #711H Well** in relation to the adjoining spacing units to the north in Section 3.

Ownership is diverse between the subject spacing unit and the spacing unit to the north. XTO Energy Inc. and the Bureau of Land Management are the only affected persons. **Exhibit C** reflects that a copy of this application with all attachments has been sent by certified mail to each affected person advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

**Exhibit D** is a statement from a Devon's petroleum engineer confirming that Devon's requested unorthodox location is necessary to optimize well spacing, thereby preventing waste.

Your attention to this matter is appreciated.

Sincerely,

RE: Application for Nonstandard Locations  
Engineering Statement  
Devon Energy Production Company, L.P.  
Thoroughbred 10-3 Fed Com 621H, 711H, 713H, 733H & 732H wells  
Sections 10 & 3-26S-31E  
Eddy County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. respectfully requests administrative approval of a non-standard location for each of the Thoroughbred wells referenced above by decreasing the last take point(s) from 330 feet to 100 feet from the horizontal plane outer boundary. The wells are located in the Purple Sage-Wolfcamp Gas Pool (Pool Code 98220). It is Devon's responsibility as a prudent operator to maximize lateral length and to minimize reserves left in the ground. Decreasing the last take point will increase the wells effective lateral length by 230 feet thereby increasing ultimate recovery of reserves and preventing waste of natural resources.

Sincerely,
