Thank you Dylan. Eddie Seay is our acting agent, we will have him submit the supporting documents.  
Appreciate your help

Bradley,

The OCD is able to entertain the extension request for the Ojo Chiso #2 well (SWD-1713). The next step in the process is for the operator to perform an updated AOR analysis to determine if there are any new wells that penetrate the proposed injection interval, or if there are any new affected parties in the AOR. If there are any new wells the construction information must be provided, and if there are any new parties, they must be notified. Additionally, the operator must provide a timeline for completing the project within the extension period.

Once the information is provided the extension can be acted on.

Hope that helps and let me know if any additional information or clarification is necessary to accomplish the task.

Regards,

**Subject:** [EXT] GRD Ojo Chiso #2 Ext Request

Dylan,

It was great to hear from you and I look forward to getting more details about the groundwater study.

As I mentioned on the phone, we have filed for an extension on the Ojo Chiso #2 SWD and have yet to get a response from NMOCD. I believe this is our first request for a extension. Please find the attached paperwork for review. Any help you could provide would be greatly appreciated. If you have any questions please let me know.

Thanks again,

Stay well.
