Re: Application of FAE II Operating, LLC for Administrative Approval to Surface Commingle, Store, and Sell Oil and Gas Production from the Jalmat Oil and Gas Pool for the Winningham #9 Well and the Sholes B 30 #3 Tank Battery located in Sec. 30, T-25S, R-37E, Lea County, New Mexico

Dear Mr. McClure:

FAE II Operating LLC, OGRID: 329326, requests administrative approval for surface commingling, off-lease storage, and off-lease marketing of oil and gas production from the Jalmat Oil and Gas Pool for its Sholes B 30 #3 and Winningham #9 wells located in Section 30 of Township 25S, Range 37E as shown on the map in Exhibit A. The two separate leases are also identified by outline and legend. Exhibit B offers further detail on the relevant leases and wells.

The attached battery diagrams, Exhibits C and D, are accurate schematics of the current facility and the proposed commingled facility, respectively. A new 3-phase flowline will be laid from the Winningham #9 well to the Sholes B 30 #3 Tank Battery and tie in to its own 3-phase separator. From there, the water and oil flow lines will tie into their own tanks for off-lease storage on the Sholes B 30 #3. However, a new gas flowline will also be laid from the Sholes B 30 #3 to the Winningham #9 well and tie in on the suction side of the compressor for gas commingling purposes. For oil measurement, individual allocation meters will be utilized at each well site for measurement of oil production stemming from the separators. For gas measurement, the Winningham #9 gas production will be measured by subtracting the metered Sholes B 30 #3 gas production from the total gas production measured by the sales meter at the Winningham #9.

After a review of internal records, the interest owners are not identical for the wells mentioned above. As such, we have notified all relevant parties of our intent to commingle gas production (see attached letter). The working, royalty, and overriding royalty interest owners as shown in Exhibit E have been notified of this application by certified mail. Copies of the certified mail receipts are attached as Exhibit F.

This proposed commingling of production is in the interest of conservation and will not result in reduced royalty or improper measurement of production. If there are further questions concerning this application, please feel free to contact the undersigned by email at kevin@faenergyus.com or by telephone at (832) 220-9188.

Very truly yours,

FAE II Operating, LLC
