Re: Amended Application of Solaris Water Midstream, LLC to permit for salt water disposal in the proposed Centaurus SWD #1 well to be located in Section 19, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico

Dear Ms. Sandoval:

The original application stated that the surface location of the Centaurus SWD #1 well would be 2437' FSL and 1' FWL in Section 19, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico. The amended location will be 1400' FNL and 1' FWL, in Section 19, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico. There are no other changes to the original application.

Enclosed is an amended form C-102 showing the correct footage calls for the surface location along with the correct plats and maps showing the revised location. This amendment is being made to satisfy concerns by COG Operating, LLC. Their concerns have been addressed and COG Operating, LLC has waived objections to this well as shown in their letter to Solaris, dated November 12, 2018 which is also attached.

This change in location will not affect any other part of the application. The new AOR does not include any wells that were not addressed originally. Further, no additional adjacent operators were identified after the move, so no additional notifications are required. All other attachments to the original C-108 have not changed. The surface owner is New Mexico State Lands, Solaris is copying them on this letter so that they are aware of the new location.

If you or your staff have any questions or require additional information, please do not hesitate to contact me.

Best regards,

Drew Dixon

November 12, 2018

Solaris Water Midstream, LLC  
907 Tradewinds Blvd., Suite B  
Midland, TX 79706

Re: Centaurus SWD Well No. 1 Letter Agreement  
Section 24, T25S-R27E, Eddy County, New Mexico ("Section 24")

Mr. Carpenter:

Reference is made to the application of Solaris Water Midstream, LLC ("Solaris"), dated October 11, 2018, wherein Solaris seeks approval of Oil Conservation Division Form C-108 (Application for Authorization to Inject; "the Application") for the Centaurus SWD No. 1 (the "Well") to inject produced water for disposal purposes into the Devonian (Silurian) and Fusselman formations. In consideration for the terms set forth herein, COG Operating LLC ("COG") agrees to waive objection to the application for authorization to inject upon the following conditions:

1. Solaris will change the Well's surface location to 2,471' FSL & 1' FWL of Section 19-T25S-R28E. Drilling the Well in this manner allows COG to fully develop Section 24. Solaris acknowledges that moving the surface location of the Well is a material inducement for COG to not protest the Application. If Solaris does not move the surface location of the Well to the aforementioned location, COG will object to the Application of the Well.
2. Solaris will run a wireline continuous gyro throughout the wellbore of the Well and agrees to give COG access to all such data in order to reduce the risk of wellbore collision that may be present with COG's current and future development.
3. Solaris will provide COG with all data collected in the wellbore of the Well no later than thirty (30) days after Solaris collects or has access to such data.

Solaris' operations in connection with its drilling, casing, cementing, equipping or operating the Well will not restrict or impede COG's access to its well heads or surface facilities, or in any way interrupt or impair COG's access to or exploration, development or production operations on its leasehold.

If you agree with the foregoing terms and provisions of this agreement, kindly signify your approval in the space provided below for your signature and return to Mike Wallace at the letterhead address. This agreement shall be null and void for all purposes and of no further force and effect unless countersigned by Solaris and returned to COG on or before November 31, 2018.

*[Signatures on the following page]*

This Agreement may be executed by the Parties in any number of counterparts, each of which shall be deemed an original instrument, but all of which together shall constitute one and the same instrument, and the delivery of such counterparts may be via facsimile or email, which shall be as effective as hand delivery of original instruments.

Very truly yours,

COG Operating LLC
