Sarah,

Attached is the signed administrative order as amended (A) for UIC permit SWD-1179-A, regarding the MALJAMAR SWD 29 #001. The order will soon be available on the OCD's Imaging website.

Please familiarize yourself with the contents of the order and reach out to the NMOCD UIC team should you have any additional questions.

Regards,

Subject: Re: [EXTERNAL] Maljamar 29 SWD #1 Injection Extension

We began injection Friday after the MIT.

Due to the timing of expiration, approval of the NOI and timing to complete the workover, we wanted to make sure we remained in compliance in all areas.

I submitted the bradenhead test Monday via e-permitting so I can submit the MIT sundry separate from the workover operations sundry if that works for you all.

Just let me know.

Thank you,

Sarah

Thanks Sarah,

So it passed an MIT, but hasn't begun injection? Or is it injecting again?

Thanks for singing it anyway though. I can draft an updated order all the same.

Good afternoon Dylan,

We were able to get this well worked over and back online last week prior to the deadline with Gary Robinson was on location to witness the bradenhead and MIT tests.

I have signed the EOT just in case it's needed.

I've submitted the attached to the BLM for approval and once it's approved, I'll submit in e-permitting.

Let me know if you have any questions.

Hope you all have a Happy Thanksgiving.

Sarah Chapman

Sarah,

Here is the signed EOT. Go ahead and sign the consent form and I'll draft a new order.

Subject: RE: [EXTERNAL] Maljamar 29 SWD #1 Injection Extension

Hi Sarah,

So the request for extension of time to resume injection is timely and can be recognized. However, for the UIC team to fully process and approve the request, we'll need Spur to perform an updated AOR analysis to determine:

- If there are any new affected parties
- And if there are any new wellbore penetrations through the injection interval.

If there are new operators who did not originally receive notice, then they need to be notified. If there are any new penetrations, generate a list for technical review.

Let me know if you have any questions.

Otherwise we are processing the NOI and should be able to get back to you shortly on that matter.

Regards,

Subject: [EXTERNAL] Maljamar 29 SWD #1 Injection Extension

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good afternoon:

Spur Energy Partners LLC is respectfully requesting a 6-month extension to SWD-1179, initially requested on 09/21/2022. We have submitted an NOI to perform workover operations to the BLM and NMOCD but now have concerns the sundry will not be approved in time and there will be delays in getting necessary equipment to repair the well.

We have until November 20, 2022 until we lose authority. Once the NOI sundry is approved, we will move forward with our planned operations to get this well back online.

Attached is a copy of the order as well as the extension request information.

Please let me know if you have any questions.

Thank you for your time.
