Describe Cause of Problem and Remedial Action Taken.*: Unknown truck unloaded into 210 bbl tank on south side of plant without permission. Tank overflowed. Spill contained approximately 5 bbl oil and 10 bbl produced water.		
Describe Area Affected and Cleanup Action Taken.* : A vacuum truck was called and picked up approximately 2 bbl oil and 3 bbl water. Spill was contained in secondary containment.		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCB rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCB marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCB acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
