CERTIFIED MAIL RETURN RECEIPT REQUESTED

SEPTEMBER 23, 1999

**MR. MICHAEL E. STOGNER
CHIEF HEARING OFFICER/ENGINEER
OIL CONSERVATION DIVISION
2040 S. PACHECO
SANTA FE, NM 87505**

**Re: Request for exception to Special Rules and Regulations for the Bluitt San Andres Associated Pool
The N/2 of Section 15 and E/2 of Section 16, T-8-S, R-37-E, Roosevelt County, New Mexico.**

Dear Mr. Stogner:

As we discussed on the telephone this letter is a request for an exception to Rule 2. of the Special Rules and Regulations for the Bluitt San Andres Associated Pool.

The Special Rules and Regulations for the Bluitt San Andres Associated Pool are as follows:

**RULE 2. (a) A standard oil proration unit shall be 80 acres. A standard gas proration unit shall be 320 acres.
(b) Oil wells shall be located within 150 feet of the center of a quarter-quarter section. Gas wells shall be located not closer than 990 feet to the quarter section line nor closer than 330 feet to any quarter-quarter section line.**

This request concerns the following wells operated by OGS Operating Company, Inc. in the Bluitt San Andres Associated Pool in Roosevelt County, New Mexico:

The Bilberry 15 Federal Com #2 well located 1,980' FNL & 1,980 FWL of Section 15, T-8-S, R-37-E, this is the second well located on the N/2 of Section 15 Proration Unit the being 320± acres.

The Bluitt 16 State #1 well located 1,980' FNL & 660 FWL of Section 16, the Proration Unit being the E/2 of Section 16, 320± acres.

These wells were drilled to a depth sufficient to test a mid to lower San Andres oil zone. Both well's location and spacing units are in compliance with the Special Rules and Regulations for the Bluitt San Andres Associated Pool for oil wells. Neither well was commercially productive in the oil zone, but each was completed and commercially productive in a shallower San Andres gas zone.

This letter is intended as an application, for each well, for an exception to RULE 2. of the Special Rules and Regulations for the Bluitt-San Andres Associated Pool

Enclosed is a plat showing the proration units and the operator of affected leases offsetting these wells.

In accordance with your instructions a copy of this letter has been sent Certified Mail Return Receipt Requested to the affected offset operators (see the attached list).

Please call if you have a question.

**Sincerely,
OGS Operating Company, Inc.**

Thom O'Brien, President
