* None

Describe Cause of Problem and Remedial Action Taken.* Flowline on west side of Hwy 18 blew out causing 10 BALS of fluid to flow into pasture area. 3 BALS was recovered and flowline was repaired. Contaminated soil will be excavated and hauled to disposal.

Describe Area Affected and Cleanup Action Taken.* Pasture area west side of Hwy 18 was affected - area was dug out and line was fixed. Area will be excavated and samples will be taken. All contamination will be hauled to landfarm for disposal.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
