#### RE: Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit, Big Eddy Compressor Station, Lea County, New Mexico.

Mr. VonGonten:

DCP Midstream (DCP) hereby submits for your review and consideration a completed *Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit* for the Big Eddy Compressor Station. Big Eddy Compressor Station has an OCD issued Discharge Permit (GW-277) that expires on February 17, 2012. As discussed in e-mail correspondence dated September 26, 2011, this completed questionnaire is being submitted by DCP in lieu of a permit renewal application, which would be due to the OCD by October 17, 2011.

Please send all correspondence regarding this questionnaire to the attention of Keith Warren, DCP Midstream, 370 17<sup>th</sup> Street, Suite 2500, Denver, CO 80202.

Should you have questions or need further information please call me at 303-605-1936. Thank you very much for your consideration and assistance with this matter.

Sincerely, DCP Midstream

Keith Warren, P.E. Senior Environmental Engineer

### Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits; while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility before July 15, 2011.
