Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility before July 15, 2011.

• Name of the owner or operator of the facility

Williams Four Corners, LLC

• Point of contact

Name Monica Sandoval

Telephone <u>505-632-4625</u>

Email monica.sandoval@williams.com

Mailing address 188 County Road 4900, Bloomfield, NM 87413

• Facility name Cedar Hill Compressor Station

Facility location

Unit Letter, Section, Township, Range <u>S28 T32-N R10-W (San Juan County)</u> Street address (if any)_____

Facility type Refinery Crude Oil Pump Station Geothermal Other (describe)	Gas Plant Injection Well Abatement	X Compressor
Current and Past Operations (please c Impoundments Disposal Well	heck all that apply)	☐ Waterflood ☐ Wash Bay
