# **GW-108**

## Questionnaire

## DATE: 07.2011

### Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility before July 15, 2011.

Name of the owner or operator of the fate		
Williams Four Corners, LLC		
Point of contact		i S
Name Monica Sandoval		
Telephone <u>505-632-4625</u>	- <u> </u>	<u>_</u>
Email monica.sandoval@williams.com		
Mailing address <u>188 County Road 4900</u>	Bloomfield NM 8741	3
maining address <u>ros soundy hour ross</u>		
<ul> <li>Facility name <u>30-5 Central Delivery Point</u></li> <li>Facility location Unit Letter, Section, Township, Range <u>Street</u> address (if any)</li> </ul>		Arriba County)
Facility type     Refinery     Crude Oil Pump Station     Geothermal	Gas Plant Injection Well	X Compressor

#### • Current and Past Operations (please check all that apply)

Other (describe)

Impoundments	Treatment Plant	Waterflood
🔲 Disposal Well	Brine Well	🗌 Wash Bay

Steam Cleaning Groundwater Remediation					
• Facility Status X Active Idle Closed					
• Does this facility currently have a discharge permit? X Yes D No					
If so, describe those activities including the materials involved, the frequency of discharge, a the estimated volume per discharge event.					
• What is the depth below surface to shallowest ground water in the area? <u>~200-500 ft</u>					
Are there any water supply, groundwater monitoring, or recovery wells at the facility Water supply Monitoring Recovery					
Are there any water supply, groundwater monitoring, or recovery wells at the facility' Water supply Monitoring Recovery  If these wells are registered with the Office of the State Engineer (OSE), what are the C well numbers?					
<ul> <li>Are there any water supply, groundwater monitoring, or recovery wells at the facility' Water supply Monitoring Recovery</li> <li>If these wells are registered with the Office of the State Engineer (OSE), what are the C well numbers?</li> <li>Are abatement actions ongoing?No</li> </ul>

Oil & Gas Facilities Inventory Questionnaire May 12, 2011 Page 3 of 3

. . .

• Does the facility incorporate any underground lines	other	than	electrical	conduits,
freshwater, natural gas for heating, or sanitary sewers?	Х	Yes[	No ·	
If so, what do those buried lines contain?				

Natural gas and wastewater (rain water/wash down water from equipment skid)

### THIS FORM IS DUE TO THE OIL CONSERVATION DIVISION BY JULY 15, 2011.

Questions? Please contact Glenn VonGonten at 505-476-3488 or Carl Chavez at 505-476-3490.

Thank you for your cooperation.
