Jami Bailey Division Director Oil Conservation Division

## Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermat regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility <u>before July 15, 2011</u>.

#### Name of the owner or operator of the facility

Williams Four Corners, LLC	·	
Point of contact		
Name Danell Zawaski		
Telephone 505-634-4951		
Email Danell.zawaski@williams.com		
Mailing address 188 County Road 490	00, Bloomfield, NM 87413	
<ul> <li>Facility name <u>Lateral N-30 Compressor</u></li> </ul>	Station	
• Facility location Unit Letter, Section, Township, Range Street address (if any)		
• Facility type Refinery Crude Oil Pump Station Geothermal Other (describe)	Gas Plant Injection Well Abatement	X Compressor
Current and Past Operations (please of Impoundments     Disposal Well	check all that apply)	Waterflood
