NATURE OF RELEASE

Type of Release	Produced water	Volume of Release	20bbls	Volume Recovered	0bbls
Source of Release	Water tank	Date and Hour of Occurrence	01/30/2012	Date and Hour of Discovery	01/30/2012 8:00 a.m.
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?	Date and Hour				
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Water haulers did not keep up with their hauling schedule causing this water tank to run over. We have cut back on the trucking companies responsibilities for Concho to ensure they are not overloaded and won't miss any facilities.

Describe Area Affected and Cleanup Action Taken.*

Initially 20bbls of produced water was released from the water tank and we were unable to recover any fluid from the release. The majority of the release was contained inside the berm walls with a small portion seeping through the berm. Tetra Tech will sample the spill site area to delineate any possible contamination from the release and we will present a work plan to the NMOCD/BLM for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: C-141 Initial Report-FIR FEDERAL TANK BATTERY
Attachments: FIR FEDERAL TANK BATTERY -- DATE OF RELEASE -- 01-30-2012.pdf

Please see attached the C-141 Initial Report for a release that occurred at our Fir Federal Tank Battery on 01/30/2012. We have scheduled to have Tetra Tech take soils samples of the spill area to delineate.

Thank you,

Joshua Russo
