NMOCD Tracking Number: 2RP-1045 \* Date of Release: 2/6/12 \* ATTN Roy White (Devon Energy Foreman)

Greetings,

The New Mexico Oil Conservation Division District 2 office (OCD) is in receipt of a proposal (work plan) for remediation of impacted soil, resulting from a release of produced fluids, at the site referenced above. The work plan, dated February 24, 2004, submitted by Talon LPE on behalf of Devon Energy, is approved with the following stipulations and/or conditions:

- Notify OCD 48 hours prior to commencement of remedial activities.
- Notify OCD 48 hours prior to obtaining samples where the analyses will be submitted to OCD.
- Obtain OCD approval prior to backfilling excavated areas.
- Project is to be completed, and closure documentation filed with OCD, no later than April 29, 2012.
- Conditions of approval may be subject to modification as site conditions may warrant.

Be advised OCD approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

If you have any questions or concerns, and for notifications, please contact me.
