RE: Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit for GW-163 - Duke Apex CS, GW175 – Duke Hobbs GP, GW-150 – Duke Pure Gold 28 CS, GW-002 – Lee GP, GW-128 – South Hat Booster, GW-288 – Duke Pardue CS, and GW-044 – Hobbs Booster CS

Mr. VonGonten:

DCP Midstream (DCP) hereby submits for your review and consideration a completed *Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit* for sites GW-163 - Duke Apex CS, GW175 – Duke Hobbs GP, GW-150 – Duke Pure Gold 28 CS, GW-002 – Lee GP, GW-128 – South Hat Booster, GW-288 – Duke Pardue CS, and GW-044 – Hobbs Booster CS as requested in the March 1, 2012 letter from Director Jami Bailey. DCP has reviewed the May 10, 2011 correspondence entitled “Revised OCD Discharge Plan Permit Requirements” from your website and has completed the questionnaires accordingly.

Please send all correspondence regarding these questionnaires to the attention of Matt Findley, DCP Midstream, 370 17th Street, Suite 2500, Denver, CO 80202.

Should you have questions or need further information please call me at 303-605-2176. Thank you very much for your consideration and assistance with this matter.

Sincerely,
DCP Midstream

Ruth Lang, P.G.

Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission-regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Please complete and submit a separate questionnaire for each facility within 30 days of your receipt of this form.

• Name of the owner or operator of the facility

DCP Midstream

• Point of contact

Name Matt Findley
Telephone 303.605.2176
Email mcfindley@dcpmidstream.com
Mailing address DCP Midstream, 370 17th Street, Suite 2500, Denver, CO 80202

Facility name Pure Gold 28 Compressor Station

• Facility location

Unit Letter, Section, Township, Range S28 T23S R31E NMPM
Latitude, Longitude (Decimal Degrees) 32.28111 N / 103.79028 W
Street address (if any) none assigned

• Facility type

• **Facility Status** ☒ Active ☐ Idle ☐ Closed

• **Does this facility currently have a discharge permit?** ☒ Yes ☐ No

If so, what is the permit number? GW-150

• **Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water?** (This includes process activities, equipment maintenance, or the cleanup of historic spills.)

☐ Yes ☒ No

If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.

• **What is the depth below surface to shallowest ground water in the area?** 160 feet

• **Are there any water supply, ground water monitoring, or recovery wells at the facility?**

Water supply ☐ Monitoring ☐ Recovery ☐ No

If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? _____

• **Are abatement actions ongoing?** No

If so, please describe.

• **Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility?** ☐ Yes ☒ No

If so, what are the API numbers assigned to those wells?

- Are there any sumps at the facility? ☐ Yes ☒ No
Number of sumps with volume less than 500 gallons _____
Use and contents _____
Is secondary containment incorporated into the design? ☐ Yes ☐ No
Number of sumps with volume greater than 500 gallons _____
Use and contents _____
Is secondary containment incorporated into the design? ☐ Yes ☐ No
- Does the facility incorporate any underground lines other than electrical conduits, freshwater, natural gas for heating, or sanitary sewers? ☒ Yes ☐ No
If so, what do those buried lines contain?
Process wastewater and environmental drain piping, natural gas inlet and outlet piping, facility process piping.

THIS FORM IS DUE TO THE OIL CONSERVATION DIVISION WITHIN 30 DAYS OF YOUR RECEIPT OF THIS FORM.

Questions? Please contact Glenn von Gonten at 505-476-3488.

Thank you for your cooperation.

Deputy Cabinet Secretary

Jami Bailey
Division Director
Oil Conservation Division

MARCH 1, 2012

Mr. Keith Warren
DCP Midstream, LP
370 17th Street
Suite 2500
Denver CO 80202

Dear Mr. Warren:

The Oil Conservation Division's (OCD) records indicate that the following Water Quality Control Commission (WQCC) Discharge Permits have already expired or will soon expire.

GW-163	Duke Apex CS
GW-175	Duke Hobbs GP
GW-150	Duke Pure Gold 28 CS
GW-002	Lee GP
GW-128	South Hat Booster
GW-288	Duke Pardue CS
GW-044	Hobbs Booster CS

OCD has revised its permitting policies. These changes may affect the renewal of your discharge permit(s). Please submit an "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" for each of your facilities (see attachment and OCD's "Notifications and Announcements" at <http://www.emnrd.state.nm.us/oed>). Please submit the completed Questionnaires within 30 days of your receipt of this letter. Based on your response, OCD will determine whether you will need to submit a discharge permit renewal. If OCD determines that you no longer are required to operate under a WQCC Discharge Permit, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit.

Mr. Warren
