**Oil & Gas Facilities Questionnaire for Determination of a
WQCC Discharge Permit**

Only Water Quality Control Commission-regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Please complete and submit a separate questionnaire for each facility within 30 days of your receipt of this form.

• Name of the owner or operator of the facility

Jim's Water Service

• Point of contact

Name Dimas Herrera
Telephone 575 748 5140
Email dherrera@jswm.net
Mailing address P.O. Box 1387
Artesia, NM 88211

Facility name Jim's Water Service Wash Bay

• Facility location

Unit Letter, Section, Township, Range _____
Latitude, Longitude (Decimal Degrees) _____
Street address (if any) 11413 US Highway 82 East
Fredrick County, NM

• Facility type

- | | | |
|---|---|---|

• **Facility Status** ☒ Active ☐ Idle ☐ Closed• **Does this facility currently have a discharge permit?** ☒ Yes ☐ NoIf so, what is the permit number? GW172• **Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water?** (This includes process activities, equipment maintenance, or the cleanup of historic spills.)☐ Yes ☒ No

If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.

• **What is the depth below surface to shallowest ground water in the area?** 600' est• **Are there any water supply, ground water monitoring, or recovery wells at the facility?** no
Water supply ☐ Monitoring ☐ Recovery ☐

If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? _____

• **Are abatement actions ongoing?** no

If so, please describe.

• **Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility?** ☐ Yes ☒ No

If so, what are the API numbers assigned to those wells?

- **Are there any sumps at the facility?** ☐ Yes ☒ No
Number of sumps with volume less than 500 gallons: _____
Use and contents: _____
Is secondary containment incorporated into the design? ☐ Yes ☐ No
Number of sumps with volume greater than 500 gallons: _____
Use and contents: _____
Is secondary containment incorporated into the design? ☐ Yes ☐ No
- **Does the facility incorporate any underground lines other than electrical conduits, freshwater, natural gas for heating, or sanitary sewers?** ☐ Yes ☒ No
If so, what do those buried lines contain?

THIS FORM IS DUE TO THE OIL CONSERVATION DIVISION WITHIN 30 DAYS OF YOUR RECEIPT OF THIS FORM.

Questions? Please contact Glenn von Gonten at 505-476-3488.

Thank you for your cooperation.

Oil Conservation Division

MARCH 1, 2012

Ms. Sherry Glass
Jims Water Service
1675 Broadway
Suite 2800
Denver, CO 80202

Dear Ms. Glass:

The Oil Conservation Division's (OCD) records indicate that the following Water Quality Control Commission (WQCC) Discharge Permit has already expired or will soon expire.

GW- 172 Artesia Service Facility

OCD has revised its permitting policies. These changes may affect the renewal of your discharge permit(s). Please submit an "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" for each of your facilities (see attachment and OCD's "Notifications and Announcements" at <http://www.emnrd.state.nm.us/oed>). Please submit the completed Questionnaires within 30 days of your receipt of this letter. Based on your response, OCD will determine whether you will need to submit a discharge permit renewal. If OCD determines that you no longer are required to operate under a WQCC Discharge Permit, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

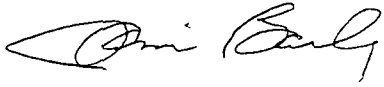

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit.

Ms. Glass
