ADMINISTRATIVE ORDER DHC-814

Siete Oil & Gas Corporation
P.O. Box 2523
Roswell, New Mexico 88202

Attention: Robert Lee

*Osage Federal Well No. 9
Unit B, Section 34, Township 19 South, Range 29 East, NMPM,
Eddy County, New Mexico.
Parkway Bone Spring & Parkway Wolfcamp Pools*

Dear Mr. Lee:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 70 barrels per day, and total water production shall not exceed 140 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2,000 by the top unit allowable for the Parkway Wolfcamp Pool.

Administrative Order DHC-814
Siete Oil and Gas Corporation
August 28, 1991
Page 2

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Bone Spring Pool:	Oil 75%,	Gas 35%
Wolfcamp Pool:	Oil 25%,	Gas 65%

Pursuant to Rule 303-C-5, the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 28th day of August, 1991.

STATE OF NEW MEXICO
OIL CONSERVATION DIVISION
