Re: Administrative Permit SWD-1272-A Exception to Lined Tubing

Holiday SWD Well No. 1 (API 30-045-35231)
2257 FSL, 1038 FEL, Unit letter I, Sec 22, T25N, R10W, NMPM, San Juan County
Injection into the Morrison-Bluff-Entrada formations, Depths: 6490 to 7520

You have submitted a request on behalf of XTO Energy, Inc., for a 6 month exception to the requirement to use lined disposal tubing in this well due to a delay in the supply of this material.

The Division finds that granting this request will not harm fresh water or the environment and should be approved. XTO may install unlined disposal tubing at this time and replace it with lined tubing prior to September 5, 2012, at which time a new MIT shall be conducted under supervision of the Division's Aztec district office.

All requirements of the above referenced disposal permit and in Division Rules regarding injection or disposal remain in full force and effect.

JAMI BAILEY

Subject: Proposed Tubing Requirement Exception
Holiday SWD #1 API# 30-045-35231
San Juan County, NM

Dear Mr. Jones:

XTO Energy Inc. is requesting a variance to Administrative Order SWD-1272-A which requires XTO to utilize lined tubing. XTO would like to use 2-7/8", 6.5#, J-55, ST&C 8rd (unlined) tubing for a period of 6 months or less. XTO anticipates the lined tubing delivery within the 6 month period, at which time; the unlined tubing will be replaced.

Thanks for your consideration.
