RE: NM-032369  
Elliott B-12 No. 2  
NW $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec. 12, T25S, R37E  
Lea County, New Mexico

DNC-819

Dear Mr. Westbrook

Your request to surface commingle hydrocarbons from the Brunson-Drinkard-Abo, S. Wantz Granite Wash and the tub formations from the Elliott B-12 well No. 2, on lease No. NM-032369, is hereby approved subject to the concurrence of the New Mexico Oil Conservation Division.

It is our understanding that proper oil production allocation back to these formations will be accomplished by shutting in the upper zone or lower zones or completion, and obtaining an accurate test of the zone or zones producing.

We understand that the working interest owners are the same in all zones to be commingled and have been notified. Further, your request is made in the interest of conservation and will not result in reduced royalty or improper measurement of production.

Please contact Adam M. Salameh, Petroleum Engineer, at (505) 887-6544 or at the letterhead address if further information is required.

Sincerely,

**Ron Duntan**
