Attn: Mr. Reggie Reston

**RE: Injection Pressure Increase
 Red Hills SWD Well No. 1
 Lea County, New Mexico**

Dear Mr. Reston:

Reference is made to your request dated April 22, 2005, to increase the surface injection pressure on the Red Hills SWD Well No. 1. This request is based on a step rate injection test that was conducted on the well on April 5, 2005. The step rate test data shows that approval of the request will not result in the fracturing of the injection formation and confining strata.

You are therefore authorized to increase the surface injection pressure on the following well:

<i>WELL NAME & NUMBER</i>	<i>MAXIMUM SURFACE INJECTION PRESSURE</i>
Red Hills SWD Well No. 1 API No. 30-025-35598 Unit M, Section 28, T-25 South, R-33 East, NMPM, Lea County, New Mexico	1408 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected fluid is not being confined to the injection zone or is endangering any fresh water aquifers.
