|--|---|--|
| Type of Release: Oil and water mix   | Volume of Release: 47-bbbls                                 | Volume Recovered: 40-bbbls                         |
| Source of Release: check valve failed  | Date and Hour of Occurrence:<br>4/27/12 @ 09:00 hrs         | Date and Hour of Discovery:<br>4/27/12 @ 09:00 hrs |
| Was Immediate Notice Given?<br><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required | If YES, To Whom?<br>NMOCD                                   |  |
| By Whom? Bradley Blevins   | Date and Hour: 4/27/12                                      |  |
| Was a Watercourse Reached?<br><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No  | If YES, Volume Impacting the Watercourse:<br>Not Applicable |  |
| If a Watercourse was Impacted, Describe Fully.* Not Applicable   |   |  |

Depth to Groundwater: ~ 50 feet

Describe Cause of Problem and Remedial Action Taken.\* Check valve failed releasing 2 bbbls oil and 45 bbbls water with 40 total bbbls recovered.

Describe Area Affected and Cleanup Action Taken.\* Approximately 6,620 square feet of area was affected by the release of ± 47-bbbls of oil and water. ± 40-bbbls of oil were recovered from the site. An Emergency Response Team arrived at the release area and began continuous abatement of the impacted area. Standing liquid was scrapped up and hauled away for disposal at a state approved facility. Approximately 230 yds of contaminated soil was excavated and hauled for disposal. Analytical data from samples taken demonstrated vertical delineation had reached threshold goals. With EMNRD approval approximately 240 yds of clean caliche was brought in and site backfilled.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
