*ADMINISTRATIVE ORDER DHC-860*

Yates Petroleum Corporation  
105 South Fourth Street  
Artesia, New Mexico 88210

Attention: Brian Collins

*Dove "VK" State No. 4  
Unit G, Section 3, Township 14 South, Range 33 East, NMPM, Lea  
County, New Mexico.  
Lazy J Penn and Undesignated Wolfcamp Pools*

Dear Mr. Collins:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 70 barrels per day, and total water production shall not exceed 140 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by the top unit allowable for the Lazy J Penn Pool.

Administrative Order DHC-859  
Yates Petroleum Corporation  
September 21, 1992  
Page 2

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Wolfcamp Pool:	Oil 98%,	Gas	98%
Penn Pool:	Oil 2%,	Gas	2%

Pursuant to Rule 303-C-5, the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 21st day of September, 1992.

STATE OF NEW MEXICO  
OIL CONSERVATION DIVISION

  
WILLIAM J. LEMAY  
Director
