Bob,

Please proceed with backfill operations on your schedule.

Mike Bratcher

Mike,

I have submitted a form C-141/Final Report and supporting documentation this morning requesting closure. Per our April 2012 meeting, I have had a contractor excavate impacted soils per our agreement and is ready to backfill to 3' BSL, place a liner and finish backfilling with topsoil, with the excavation off of the production pad Yates will reseed the area to reestablish vegetation. I will await NMOCD approval before having the contractor start final backfill work.

Please contact me if you have any questions.

Thank you.
