Subject: Progress Report Approval (AP-27) - ROC BD E-15 Release Site

**RE: "Progress Report" - Proposed Groundwater Chloride Remediation
for the Rice Operating Company's (ROC)
BD E-15 Release Site (AP-27)
Unit Letter D & E, Section 15, T22S, R37E, NMPM, Lea County, New Mexico
Progress Report Approval**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the report and proposed corrective actions for the BD E-15 Release Site, dated November 8, 2012, and has conducted a review of the report and proposed corrective actions. The proposed corrective actions, submitted in partial fulfillment of 19.15.30.13 NMAC, indicates that ROC has partially met the requirements of 19.15.30.17 NMAC for this site. Therefore, the OCD hereby conditionally approves the above-referenced proposed corrective actions for the BD E-15 Release Site:

ROC must submit to the OCD an annual progress report (including recommendations if necessary), which will be on due on April 1.

Please be advised that OCD approval of these proposed corrective actions does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

Subject: Soil Closure Approval (AP-27) - ROC BD E-15 Release Site

**RE: Soil Closure Request
for the Rice Operating Company's
BD E-15 Release Site
Unit Letters D & E, Section 15, T22S, R37E, NMPM, Lea County, New Mexico
Soil Closure Approval (AP-27)**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the Rice Operating Company's (ROC) Soil Closure Request for the Abatement Plan (AP-27) for the BD E-15 Release Site, dated October 11, 2012. The above-referenced report, submitted in partial fulfillment of 19.15.30.19 NMAC (Part 30.19, formally, Rule 19.K), indicates that ROC has partially met the requirements of 19.15.30.9 NMAC for this site. Therefore, the OCD hereby conditionally approves the Soil Closure Request for the BD E-15 Release Site and no further soil remediation is required for this site:

The ROC BD E-15 Release Site is still active under Abatement Plan, AP-27, and groundwater monitoring, further groundwater contamination delineation if warranted, and groundwater remediation must continue at the ROC BD E-15 Release Site.

ROC must re-vegetate the groundwater recovery facility portion of the ROC BD E-15 Release Site when the groundwater recovery facility is dismantled.

Please be advised that OCD approval of this request does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.

Subject: Proposed Groundwater Remediation Approval (AP-27) - ROC BD E-15 Release Site

**RE: "Proposed Groundwater Chloride Remediation"
for the Rice Operating Company's (ROC)
BD E-15 Release Site (AP-27)
Unit Letter D & E, Section 15, T22S, R37E, NMPM, Lea County, New Mexico
Proposed Groundwater Remediation Approval**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the report and proposed corrective actions for the BD E-15 Release Site, dated April 17, 2012 (including supplemental information) and has conducted a review of the report and proposed corrective actions. The proposed corrective actions, submitted in partial fulfillment of 19.15.30.13 NMAC, indicates that ROC has partially met the requirements of 19.15.30.17 NMAC for this site. Therefore, the OCD hereby conditionally approves the above-referenced proposed corrective actions for the BD E-15 Release Site:

ROC must submit to the OCD a progress report (including recommendations as proposed if necessary) within 120 days.

Please be advised that OCD approval of these proposed corrective actions does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.
