RE: Commingling Order PC-820
Rincon Unit Well No. 159M

Dear Sir:

It appears there may have been some confusion between the downhole commingling application and the surface commingling application for the subject well.

Union Oil Company of California dba UNOCAL applied for and received surface commingling, AMENDED COMMINGLING ORDER PC-795, on August 27, 1992, as attached. Subsequently we applied for downhole commingling, as attached, and received COMMINGLING ORDER PC-820. This order appears to be a surface commingling order? In addition, I believe the Aztec office was intended to be the notified office in your order rather than Hobbs.

We understand the paperwork generated through our activity, in addition to all the other State activity is taxing on your staff, and appreciate your attention in clarifying this matter.

Yours very truly,

Union Oil Company of California
dba UNOCAL

William L. Irwin
District Petroleum Engineer
