Mr. Bratcher,

As per our discussion today on the closure of the Ten Mile Unit #1. Attached is the Chloride analysis of the excavated area, for your documentation. Also, it came to my attention that a sampling error occurred in the sampling of the South sampling spot at the depth of 9 feet. Sampling was being conducted with a backhoe and it is believed soil from above fell in and was collected. We do not believe the sample is representative of the 9 foot depth and does not trend with the 346.7 ppm concentration at 7 foot or the 70.2 ppm concentration at 11'.

I am requesting closure and permission to backfill. Please respond, thank you.
