Re: Newmont #1 SWD (SWD-943)

70 42-025-07154

Mr. Jones:

Platinum Exploration respectfully requests permit SWD-943 be amended to reflect a change in injection interval. The original application (SWD-943) was approved for an open-hole injection interval of 12,025'-12,200'. We would like to extend the open-hole injection interval to 12,025'-12,700'. The permitted formation will still be the Devonian formation as originally stated. The Devonian formation extends from 12,025'-12,819' in the Newmont #1 Well.

Notices are being sent to the newspaper and any affected party within one-half mile. Copies of those certified letters will be forthcoming.

Sincerely,

Julie Figel

Here's an update on the Newmont #1:

Hopefully you have received my letter in the mail, which also copied Paul Kautz in Hobbs.

I have the affidavit back from the newspaper. I am in the process of notifying the mineral interest owners, since they were not originally notified. That was before my time here and there was confusion as to who needed to be notified at the time.

I should finish up the notifications today or tomorrow. I will Fed-Ex all the paperwork to you as soon as I finish. Thanks for your patience.

Julie:

Thanks for catching this. I just talked this over with Daniel Sanchez our enforcement manager and Chis Williams, the manager of the Hobbs District and David Catanach.

AS SOON AS POSSIBLE:

Write a formal letter to the Division in Santa Fe (to my attention with a copy to the Hobbs District attention Paul Kautz) requesting the permit SWD-943 be amended to change the depth from ... .. and to ..... Be sure and state the names of all formations involved. Send a certified copy of this letter to the 6 entities you noticed in the original application, any new operators who may have purchased leases, and put a notice in the newspaper. In your cover letters and in the newspaper, let them know they have 15 days to protest this amendment to the Division in Santa Fe.

Because **our permits are depth and formation specific**, Platinum is in violation and is injecting "without a permit", so this is considered to be very serious by the Division and by the US EPA who handles the Underground Injection Control Program as promulgated from the Safe Drinking Water Act.

Because you are only deeper in the Devonian, we can let you continue injecting unless this gets protested or unless we see a problem with it in other ways. If it gets a protest, we will give Platinum an Emergency Order to shutin the well until the issue is settled.

Thanks again for reporting this,

William V. Jones

**Subject:** Newmont #1 SWD SWD Order #SWD-943

Mr. Jones:

It has been brought to my attention a problem on the Newmont #1 well. That well was converted to SWD 11/19/04.

The problem is the order states the injection interval to be 12,025-12,200 and our current injection interval is 12,025-12,700

We are still in the Devonian just 500' deeper than we're supposed to be.

Do we need to amend the application? If so, what does that entail? Do we need to resubmit the whole package? Do we need to shut in the well since we are currently injecting below the permitted interval? Do we need to re-notify mineral interest owners and offset operators as well as republish in the newspaper?

Or could we just set a plug in the bottom of the hole from 12,200-12,700?

Please let me know our options as soon as possible. Thanks!

**Notes:**

1. The interest of Donald Watkins and Walter Watkins are subject to a Compulsory Pooling Order, NMOC Case No. 8476, Order R-7836 dated 2-27-85. This order granted a lease to Cavalcade Oil Co. with a 200% payout penalty. No evidence of record if this interest has paid out.
2. The overriding royalty interests are owned by Randall Capps, Michael Mooney, Joe Smith, William R. Crow and Badger Energy, Inc. Further review of the records is necessary to give an exact breakdown of the overrides.
