Send me the signed notices saying that they approve and send me the 20 day worded letter to Apache and if we get the signed letter today, please send to me. I will send this to the guy in Santa Fe and see if this will be ok since they approved the previous letters.

I have signatures from all partners except Apache. The partners got them back to us in less than 20 days acknowledging that we intended to commingle the production. Do I still need to re-notice all of them? I resent the letter to Apache with the 20 day language, hopefully we will get it back today.

Jennifer:

Thank you for the e-mail. I did not get the first e-mail as you said. At this time, I still need the name of the pool and its code where the wells are producing from. Also include dedication plats Form C-102 for each well.

Most importantly, OXY should re-notice each interest owner stating in the notice that they have 20 days to object to the application. The current notice written by the Landman Mr. Michael Meir did not include this 20-day objection period. Please let me know if you have any questions. Thank you.

Richard~

I believe you should have received the additional information that you requested for this commingle permit already, but I am reattaching since I haven't heard anything back from my previous email. Please see the attached and let me know if you need anything else to complete the application. Thank you very much for your time and help.

All of the working interest partners have signed the waiver except Apache and we have sent him the revised wording. He is out of the office till Wednesday and we will contact him then to see if we can get a signed wavier. As far as the other waivers go, will they work since they are signed? (Please see the attached email)

As for the pool information, please see the correct excel spreadsheet that should have the information that you need.

Also, I have a question about commingling in general. I have heard that it was thought to be correct that if we have submitted our commingle permit that we could start commingling at that time. I don't think that is correct but I wanted to double check with you to verify. Can you please advise on to the correct was to perceive this matter? I would greatly appreciate the help so I can properly advise my team. At this time, I have advise them at this time that I would not commingle without the permit, unless we had previously gained a verbal or email approval stating that we could do so.

Thanks for all your help and please let me know if this information resolves the permit or if we need to do anything additional. Thank you very much!
